## THE GAZETTE.

THURSDAY EVENING, MAY 4.

Rev. Dr. Tyng, of St. George's Church, New York, has had a most successful ministry. On Sunday fifty years of his pastoral labor were completed, and he delivered on the occasion his semi-centennial sermon. In it he gave the following interesting statement: During the half century he had delivered 10,000 sermons and addresses; had received 3,000 persons into the church by profession, and had had a compared to the church by profession, and had had so the church by profession in his Sab-25,000 children under instruction in his Sabbath schools, and all had received to some extent his personal instruction. Fifty young men had been prepared under his instruction for the of four churches and six chapels.

Dr. Hammond has made a frightful announcement in one of his recent clinical lectures. We used to think that a lady who said no when she meant yes was exercising a wholesome and normal prerogative of her sex. But we read in The Journal of Psychological Medicine that this habit indicates the presence of the serious nervous disorder called Amnesic Aphasia, and takes its rise in embolus, thrombus, or something else equally Greek and horrible.

Some men with \$40,000 a year suffer more for want of means than others with \$500. The reason is, the richer man has artificial want .-His income is \$10,000 a year, and he suffers enough for being dunned for unpaid debts to kill a sensitive man. A man who carns a dollar a day, and does not go in debt, is the happier of the two. Very few people who have never been rich will believe this; but it is true. STARTLING AND WONDERFUL DIS-

Baltimore, July 26, 1870. Gentlemen: It affords me great pleasure to testify to the virtues of the Magnum Bonum Fertilizer, as tested this spring at my country residence, Nestlewood. I tried it upon old grass, new sod, flowers, veg-ctables, &c., and in all cases with the most mark-

ed success.

I sowed lawn grass seed where the subsoil was of hard clay, with only one inch of top soil, and that poor, and gave it a dressing of Magnum Bonum on April 10, 1870. I then sowed ground plaster on it, and since have cut two crops, each about eight inches high, and competent judges declare it the most remarkable stand of grass, for its age, they ever saw. I can therefore say that for grass lands, vegetables, &c., your Magnum Bonum surpasses any Fertilizer I have ever seen. Very truly, yours, W. COURTENAY.
